

My name is Michael Smyth. I am working through my college search process. After reviewing your website, I discovered that your college have many of the attributes I am searching for in a college. I would be very interested to learn more about your "Business Administration" program, as well as the possibility of participating on your team. I am looking to attend college and playing football during the 2016-2017 season.

Right now, I am in Grade 10 at Long Falls High School in Long Falls, Florida. Currently, I have a cumulative 3.25 GPA. I have not written my SAT yet. I feel that my athletic accomplishments are a result of ongoing instruction from my coach, numerous hours of practice, and learning control of my mental game. They have led me to believe that I could be an asset on your team.

In addition to my YouTube link (to review my videos/clips/footage), I have attached an athletic resume outlining my academic and athletic achievements. I can also send you a schedule for my upcoming season and camps.

Thank you for taking time to review my resume and videos. I would really appreciate the chance to talk with you at your earliest convenience.

Sincerely,
Michael Smyth
